

Review for Quiz 3

*At first, try doing this **without looking in your book**. When you do need to look up a word or base, be sure to mark it – this will help you when studying later to determine which components need special attention.*

You must break the underlined words below up into their components and define the meaning of each part. Then, using your breakdown of the word and the context that the sentence provides, take a guess at what you think this word actually means.

1. Example Sentence: Julius is constantly thinking about the meaning of life and purpose of existence; he should study ontology.

Component(s) and meaning(s):
